

TerraFence™

the naturally green fence®

Creating beautiful boundaries for life...

NATURES COMPOSITES™
organic building products

Made in the USA.
Helping American
Farmers and the
Environment.

It's what every builder wants
and every homeowner dreams of...

Eco-friendly composite fence systems
make it easy to build green for life!

Natures Composites' products are engineered to be the highest quality composite wood substitute products on the market, using a process that respects protecting the environment for future generations to come. Natures Composites uses wheat straw as a superior form of cellulose rather than wood for its natural fiber. Agri-fiber is annually produced whereas trees require decades to harvest and harvesting forests are known to adversely impact ecosystems. Recycled plastics are incorporated into our product for strength and durability keeping this valuable resource from clogging up our ecosystems in landfills.

TRADITIONAL STICK BUILT FENCING

Staggered Dog-Eared Pickets

Custom Rolling Picket Cut

Traditional Stick-Built Fencing

TerraFence™ Traditional fencing offers a full line of sustainable composite fencing products. Our traditional fence components allow consumers, contractors and architects to design and build virtually any style of fencing system imaginable... from privacy to basket weave, to shadowbox, to picture frame and more... the sky is the limit!

Eco-Friendly Fencing

- Made with wheat straw cellulose and recycled HDPE (milk jugs)
- Natures Composites uses no toxic additives or chemicals in its manufacturing process
- Low maintenance, no painting or sealing
- Retains color longer, won't fade like wood
- Cut and screws just like wood
- 20-year limited warranty

TerraFence™ products come in four popular colors:
Rosewood, Timber Brown, Raven and Charcoal Grey.

Rosewood Timber Brown Raven Charcoal Grey

Actual colors may vary from the samples displayed.

PERIMETER AND RUSTIC RAIL FENCING

ALL NEW
2014

New Thicker Rail Design
and Smart-Fit System
with Interlocking
Components!

Perimeter Rail & Rustic Rail Fencing

TerraFence™ is proud to offer newly updated Perimeter Rail and Rustic Rail with "Smart-Fit" Interlocking Components. Our Perimeter Rail features a thicker (2" x 7") high-style rail design. While our Rustic Rail (3" x 5") gives you the slim look of a traditional split-rail without the fading, splitting or upkeep of real wood.

Sustainable, Green and Easy to Install

- Smart Fit interlocking components make installation quick and easy
- Made with wheat straw cellulose and recycled HDPE (milk jugs)
- Natures Composites uses no toxic additives or chemicals in its manufacturing process
- Low maintenance, no painting or sealing
- Retains color longer, won't fade like wood
- 20-year limited warranty
